

2011 Print Promotions

Located on the Information Center Kiosk
or handed out at the box office!

This new Information Center Kiosk is a great way to reach consumers. Each Kiosk features reinforced racks to hold various kinds of printed material. On screen advertising has the highest audience recall rate of any other media, so by placing your printed material on the Information Center Kiosk, the moviegoer has the opportunity to pick up an invitation from you after we direct them to the Kiosk with our commercials. All clients receive the utilization of the Information Center Kiosk as added value, so take advantage of this offer and put a moviegoer's special on your printed material! If needed, WideScreen Media Group can design your printed materials for you. See our website for printing dimensions and pricing; our low costs will surprise you!
